Telserv Receives Esteemed Certification from Cisco

Cromwell, Conn. (September 29, 2014) – Telserv LLC is awarded Advanced Unified Computing Technology Specialization and Advanced Collaboration Architecture Specialization certification from Cisco. This esteemed recognition can enable Telserv to solve their customers' most important business issues and grow business around the markets most sophisticated and technologically advanced architectures, solutions, and services.

Cisco Certification specialization levels reflect a company's depth of expertise, capabilities, and end-to-end service and support for specific solutions and technology architectures. "Telserv is extremely pleased to be recognized for achieving the highest level of technical competency. This acknowledgment bolsters our ability to create business opportunities by building innovative solutions," declares co-Founder James Colella.

About Cisco (NASDAQ: CSCO) is the worldwide leader in networking that transforms how people connect, communicate and collaborate, this year celebrates 25 years of technology innovation, operational excellence and corporate social responsibility. Cisco's vision for the consumer is to enable people to live a connected life that is more personal, more social, and more visual. Further information about Cisco can be found at www.cisco.com
